

Connecting the Dots...CHAP Promotes

Early Childhood and School Success

“We need to provide more pre-kindergarten learning experiences and we need to improve children’s health through early detection of undiagnosed chronic illnesses and get them the medical help they need,”

Judy Samelson, CEO of the Early Childhood Investment Corporation 2/15/08 *CMF NewsWire*

Pediatric-Family-Community Partners

*“(A) Medical Home is **not** a building, house or hospital. It is an approach to providing health care services in a high-quality and cost effective manner. Medical Home is as much an attitude as it is a way of delivering care: families are recognized as the principal caregivers and the center of strength and support for children.”* **Small Steps...Big Differences**, New England Serve

Children’s Healthcare Access Program

WAYNE CHAP

*Building a Children’s
Medical Home Pilot for
Detroit and Wayne County*

A Model for

- * Improving Quality and Child Health
 - * Increasing Access
 - * Reducing Costs
- * Strengthening Provider, Family and Community Partnerships
- * Impacting System Change

A Medical Home is Primary Care that is

- Accessible
- Family Centered
- Continuous
- Compassionate
- Comprehensive
- Culturally Effective
- Coordinated with all other health and social services

Wayne Children's Healthcare Access Program, WCHAP

- ◆ WCHAP is a Children's Medical Home model building upon the CHAP model in Colorado and the exciting results from the KCHAP Pilot in Kent County, Michigan.
- ◆ The CHAP model provides a Return on Investment for funders, providers, families and the community.
- ◆ The WCHAP Pilot will directly serve 2-500 to 3,000 and impact 25,000 Detroit-Wayne children in partnership with key pediatric practices, health and social service providers, foundations, families, policy makers and child health advocates. *Insurance Champions are The Health Plan of MI and Great Lakes!*

Pilot Goals

1. **Improve health** outcomes, access and quality of care.
2. **Decrease costs** by lowering ER and Hospitalizations.
3. **Increase well child** visits, screenings and cross-system coordination
4. **Impact systems** change w/innovations in policy, funding, professional development and service delivery

Children's Medical Home results in an increase in preventative care and a decrease in ER and hospitalizations.

- North Carolina CHAP has saved \$160 million annually.
- The Colorado CHAP program is now statewide and includes 93% of private pediatricians and provides a Medical Home for 90,000 Medicaid and SCHIP kids.
- KentCHAP in Grand Rapids, Michigan has seen improved health outcomes resulting in a reduction in ED visits and hospitalizations, in addition to an increase in the number of private practice Medicaid slots.
- The WCHAP Pilot has been designed based on data, and input from local and state stakeholders to assure a sustainable and innovative model for improving the health and wellness of our children.
- CHAP is a Public-Private Partnership including funding by Foundations and Medicaid Health Plans.
- **The Kresge Foundation has awarded WCHAP a Two Year Demonstration Grant February 2011.**
